Entering Public Elementary School or Junior High School in Kawasaki

To enter 1st grade in the 2019 school year, a child must have been born between April 2, 2012 and April 1st, 2013. To enter junior high (7th grade) a child must be on track to graduate from elementary school (6th grade) by March 2019. Information on how to enroll, and forms for doing so, will be sent out in late September to children who are registered residents of Kawasaki City. To enroll your child in school, bring the necessary paperwork (the school entry application form plus documents confirming the child's age and address) to your ward office by early October to complete necessary procedures.

There is a medical exam for new first-year students; the child will need to take this in November.

Information on entering junior high school will become available in early December, and new enrollments will be taken from that time.

In late February 2019 the Kawasaki International Center will host an information session for children with overseas roots (and their parents or guardians) about elementary school. Everything you need to know about elementary school in Japan will be explained simply and clearly. Foreign-language interpreters and childcare will be available, and the session will be free. As details are decided they will be announced on our homepage and flyers.

Useful information !

Did you know that it is possible to get an interpreter to help you with your business (usually having to do with child-raising or social welfare) at the ward office? There is a service which sends volunteer interpreters to ward offices to help people who need to make inquiries there. Six languages are available: English, Chinese, Korean, Tagalog, Spanish, and Portuguese. The service is free, but there are some conditions, so please contact the Kawasaki International Association for details.

HIV testing is available in Kanagawa Prefecture. In addition to HIV, you can get tested for syphilis and hepatitis B. You get your results the same day of the test. Foreign language interpreters are available to help people who are not familiar with the Japanese language. (English, Thai, Spanish and Portuguese)
