Start of a new residence management system.

Point 1

# Aresidence cardwillbe issued

# What exactly is a residence card?

A residence card will be issued to medium to a long-term resident at the time of the permission pertaining to residence such as landing permission, permission for change of status of residence and permission for extension of the period of stay.

### (Front of the card)

If a change is made to the place of residence, this is the section where the new place of residence after the change will be entered.

### (Back of the card)

届出年月日	住居地	記載者印
лантин	The set of	
資格外活動許可擱		在留期間更新等許可申請摘

Note: All or part of the information printed on the residence card will be recorded in an IC chip embedded for the purpose of preventing the residence cards from being forged or altered.

## The residence card has a well' perform

The valid period of the residence card will be as follows:

- For persons aged 16 or over
- Permanent residents: 7 years from the date of issuance

Persons other than permanent residents: expiration date of the period of stay

For persons under the age of 16

Permanent residents: until the foreign national' s 16th birthday

Persons other than permanent residents: whichever comes earlier of the expiration date of the period of stay or the foreign national' s 16th birthday

If a foreign national applies for an extension of the period of stay or applies for a change of the status of residence, this is the section where the fact that the application is pending will be entered.

Note: If permission for the extension or change is granted following the application, a new residence card will be issued.

If a foreign national receives permission to engage in an activity other than that permitted under the status of residence previously granted, this is the section where the details of the permission will be entered.

Note: The given image is only a prototype and may be subject to subsequent changes.

# Point 2

The period of stay for statuses of residence with an upper limit of 3 years will be extended to 5 vears.

For example, the period of stay for those foreign nationals who are married to Japanese nationals with the status of residence of "Spouse or Child of Japanese National" is 1 year or 3 years under the present system, but a maximum period of stay of 5 years will also become available following the implementation of the new system of residence management.

# Point 3

Foreign nationals in possession of a valid passport and residence card who will be re-entering Japan within 1 year of their departure\* will, in principle, not be required to apply for a re-entry permit.

Note: Foreign nationals who have departed from Japan using special re-entry permission will not be able to extend such permission while abroad. Please take note that such foreign nationals will lose their status of residence if they fail to re-enter Japan within 1 year of their departure\*.

\* If your period of stay expires within 1 year after your departure, please ensure that you re-enter Japan before the expiration of your period of stay.

If you depart having obtained a re-entry permit as per usual, the upper limit of the valid period for the re-entry permit will be extended from 3 years to 5 years.

# Point 4

At the time of introduction of the new system of residence management, the alien registration system will be abolished.

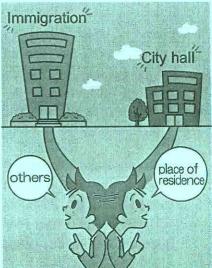

Changes will be made to the method of submitting notifications. If you are registering a new place of residence or making a change to the place of residence, please notify the office of the city, ward, town or village as per usual. If changes have been made to your name, date of birth, sex, nationality or region, please notify the nearest regional immigration office. In addition, those foreign nationals with a Immigration<sup>-</sup> status for employment such as that of "Engineer" or a status for study such as that of "Student" who have changed the organization to which they belong or those foreign nationals with such status of residence as "Spouse or Child of Japanese National" or "Dependent" who have divorced or whose spouse TT. has passed away are required to notify the regional immigration office.

Moreover, medium to long-term residents are asked to continue to keep their alien registration certificates until a residence card is issued since the alien registration certificate will be deemed, for a certain period, to be equivalent to the residence card after the implementation of the new system of residence management.

The period of stay will be extended to a maximum of 5 years

Asystem of special re-entry permission will be introduced
